# Embrace the wild

 Pinewood®

# Embrace the wild

*"To feel good you have  
to go completely wild  
from time to time."*

There's a true joy in stepping away from the daily grind – to leave behind to-do lists and embrace freedom, even if just for a while. To feel good, sometimes you have to go completely wild. Embracing the wild doesn't necessitate extreme adventures; it's about finding comfort and authenticity in the natural spaces around us.

Our mission is to make you feel at home in the wild. We craft durable outdoor and hunting clothing, focusing on what truly matters. This commitment won't prevent hailstorms or deter ants, but it will help you navigate nature's unpredictability with confidence. We prioritize quality and comfort for your everyday life in the woods, so you can fully embrace all the wonders the wild has to offer.

The forest invites you to become part of its story. It's a place where you can find peace, challenge yourself, and reconnect with what it means to be human. By embracing the wild, you embrace a life enriched by nature's beauty and wisdom.

*No fashion. Just forest life.*

Pinewood - Scandinavian Outdoor Life

## Environmental responsibility

We work to contribute to a better world, even if we, as many companies in the world, utilize the earth's resources in some way. We are a small part of the world's clothing production companies, but we believe that every thing we can do for society and the environment is something which contributes to a better world and future for us all.

## FSC® for people who care about the forest

This publication is FSC®-marked (Forest Stewardship Council®), an international membership organisation that promotes the responsible use of the world's forests.

# A collab with Södra

*The forest has always  
been our second home.  
Now, it becomes part of  
what you wear.*

ONCEMORE®

## Södra: More Than Just Trees

Södra is a large forest industry group that creates products and services for a global market. They refine products of the forest, while discovering new, exciting uses for the wonderful renewable raw material that is wood. Innovation is at the core of their

strategy, and they aim to develop new and sustainable, climate-smart products. Södra is the creator of the OnceMore pulp; a high-quality dissolving pulp made of blended textile waste and wood from sustainably managed forests, mostly in Sweden.

SMÅLAND

SWEDEN

# The forest gives. We create. You wear.

*Together with Södra, we take the  
first steps towards a fully traceable  
forest – from root to fibre.*

The forest is more than a place – it's a way of life. It has protected us from the elements, provided for us, and shaped who we are. It's where we find freedom, comfort, and the strength to keep moving. That's why we bring the forest into everything we do. With OnceMore®, we take another step forward, turning the raw power of nature into garments made to last.

SMÅLAND  SWEDEN

# Stay Fresh, Stay Comfy – Powered by HeiQ Magic

Powered by innovative Swiss HeiQ technologies for maximum comfort and long-lasting performance and OEKO-TEX® compliant:

**HeiQ Fresh:** Silver-free and sustainable odour control that keeps textiles fresher for longer without affecting fabric properties.

**HeiQ Smart Temp:** Textiles treated with HeiQ Smart Temp dynamically react to your body temperature, helping to keep you cooler even during high activity. Cooling is activated by rising body temperature and deactivated once cooling is complete.

**Make your clothes last longer:** HeiQ technologies help your clothes stay fresh and comfortable for longer, allowing you to wash them less frequently — saving water and energy, while maintaining performance and comfort.

9692

9698

9693

Spray On Super  
Waterproofer - Air Dry

Taking care of your gear is key to making it last through countless adventures. Proper treatment not only extends the life of your products but also ensures they perform at their best. Use a wear-resistant, extra water

repellent impregnation to boost protection against dirt, water, and oil stains. With the right care, your gear will be ready for every challenge nature throws your way!

# InsectSafe®

## Stay Outdoors, Stay Protected

Lightweight, breathable, and built for adventure, our InsectSafe® clothing is designed for warm climates where function matters most. Whether you're deep in the woods or by the water, you can focus on the wild – not what's buzzing around you. High-performance protection against mosquitoes, ticks, flies, and more – lasting up to 80 washes.

### Facts about IR3535®

The active repellent substance IR3535® has during more than 30 years been used in insect repellent sprays and lotions, and only now with new advanced technology, it can finally with durable effect be integrated into textiles. IR3535® is supplied by German Merck KGAA and is inspired by nature itself and naturally occurring amino acids. The technology creates a long-lasting and effective atmosphere around the textile fibres which causes most insects to avoid landing on the fabric, an added value to our already high functional garments. If insects do land on the garment, they will, due to discomfort and disorientation, not do anything more than passively just sit around until they choose to fly away again. The repellent used is biocompatible, and proven safe to use for all, including small children and pregnant women. The effectiveness of IR3535® has been confirmed by the recommendations of official bodies such as the CDC (Centers for Disease Control and Prevention), EPA (Environmental Protection Agency) and WHO (World Health Organization).

# Get Down with Nature's Coziest Insulation

## Quick facts about down

**Definition:** Down is the soft, lightweight, insulating material found beneath the feathers of birds.

### Properties:

**Thermal insulation & breathability:** Down has excellent insulating properties; it traps air to create a thermal barrier while also allowing natural breathability.

**Weight:** Down is lightweight, providing high warmth without being heavy.

**Compressibility:** Down can be compressed and regains its original shape, making it popular in sleeping bags and down jackets.

## Quick facts about feathers

**Definition:** Feathers are the stiffer, outer parts of a bird's plumage. They come in various sizes and shapes.

### Properties:

**Stiffness:** Feathers are stiffer and more durable than down, providing structural support.

**Water resistance:** Feathers can be more water-resistant due to their often oily surface that protects against moisture.

**Weight:** Feathers are heavier than down and provide less insulation.

In our commitment to quality and sustainability, we use RDS (Responsible Down Standard) certified down and feathers in our products. This certification ensures that our materials are sourced ethically, promoting animal welfare and responsible farming practices.

## Abisko Insulation Hybrid Jacket

This down jacket is designed to provide optimal warmth and comfort, making it an excellent choice for both leisure and outdoor activities. The jacket offers high insulation capacity, meaning it traps a significant amount of air and provides exceptional warmth. This jacket keeps the wearer cozy even in cold conditions. The jacket is filled with 80% goose down and 20% duck feathers. Item No. 5259 and 3259.

On this page we have summarised our key looks for the Autumn/Winter 2026-2027 collection. These products will be used as a base for marketing and communication activities during Autumn/Winter 2026-2027.

## Abisko

Abisko is our product family perfect for hiking adventures, with product features such as good breathability, comfort, stretch, light in weight and warmth. This makes Abisko perfect for sporty everyday life, hiking and active adventures in demanding weather.

- High activity level • High breathability • Comfort • Stretch
- Lightweight • Insulation • Packable

## Lappland

Durability and reliability is significant of the Lappland family. Hardwearing garments with a cohesive style and strong durability in every individual piece. Great for fishing if you like, adventurous children or at outdoor activities where hard duty clothes is a must.

- Tougher outdoor activities • Low activity level
- Strong durability • Robust fabrics • Timeless design

## Värnamo

Are you a city and nature adventurer? Then Värnamo is the Pinewood Family for you. Värnamo is a well-balanced range of outdoor garments with an urban and modern twist. This family has walked that extra mile when it comes to discrete details and carefully selected materials. It is modern city design combined with outdoor quality and function.

- Casual day to day wear • Modern look • Discrete details
- Easily matched together with other product families

## Finnveden

Finnveden is a range of smart and functional outdoor garments ready for the nearby nature and everyday activities. This is the product family for those of you who seek the casual comfort combined with the outdoor quality and function. It's everyday outdoor in the very best way!

- Everyday outdoor activities • Casual comfort
- Active lifestyle, both in and outside nature

## Småland

### Traditional Hunting

Deep forests, open bogs and fields characterizes the nature of Småland. It's all about traditional, slow hunt in all weathers and temperatures with focus on garments optimized for cold winter and warm summer. The Småland product family is focusing on function, comfort and wind and water resistance; for optimal comfort and function in all terrains similar to the one in Småland.

- Low activity level • Wind/water resistance • Comfort
- Function • Traditional design

## Furudal

### Active Hunting

Furudal boasts with scenic pine forest, areas of mire, rivers and mountains, the place for active and mobile hunt. Active hunt puts high demands on both function and comfort as well as the wind and water resistance of the garments. Great breathability makes this collection perfect for a high level of physical activity.

- High activity level • High breathability • Lightweight fabrics
- Wind/water resistance • Functionality • Comfort

## Nydala

### Classic Hunting

Nydala is made with inspiration from the past alongside the innovations of the future. With influences from our past traditions and timeless design, it will never go out of style. Enjoy this classic collection with natural materials and easy-care fabrics.

- Classic design • Natural raw materials • Easy-care fabrics

56	59	61	56-61

Belts

How to measure a belt

Take your waist measure; that is your size. The belt is measured from the buckle to the middle hole, to make room for adjustments for a tighter or wider fit. You can also measure a belt you already have from the buckle to the middle hole. The result matches what size to pick.

Men's

Women's

Kids/Junior

**XL+ Collection**  
Sizes from 4XL/C66.

Measurements in size chart may differ  $\pm 1$  cm. We reserve the right to make style changes without notice and will not be responsible for misprints.

WATERPROOF

Waterproof product with taped seams.

WATER REPELLENT

Product with good water repellent properties.

WINDPROOF

Garments with this symbol are made so that they are windproof.

BREATHABLE

Garments with this symbol have high breathability.

DURABLE

Product which is reinforced to be extra durable.

EXTRA WARM

Product that keeps you warm.

4-WAY STRETCH

Functional fabric with stretch both horizontally and vertically for maximum comfort and pliability.

ANTI-ODOUR

The product is produced in an anti-bacterial material.

SILENT

Products that are very silent for a better hunting experience.

REVERSIBLE

Reversible product with two possible colour options.

ANTI-MOSQUITO

Garments with this symbol protects against mosquito bites. The product is made from a fabric which is so tightly woven that the mosquito cannot bite through.

Designed for active outdoor activities. Breathable, easy care, light weight. Fabric and clothing protection against most species of mosquitoes, ticks, flies and other insects.

UV-PROTECTION

Garments with this symbol have extra protection against the sun's damaging UVA and UVB rays.

Bionic-Finish® Eco. Fluorine (PFC) free water repellent treatment for sports and outdoor textiles. Due to the hyper branched and hydrophobic polymers water drops will just roll off the fabric keeping the fabric dry and lightweight.

XL COLLECTION

A range of products in bigger sizes. Jackets from 4XL, trousers from C66 and D128.

## TC-1200

Our own hard-wearing fabric that we use as the outer-layer in jackets, trousers, vests and caps. The tightly woven fabric gives good windproof qualities and at the same time the impregnation makes the fabric water-resistant. Quick-drying and easy to manage. Easy to re-impregnate with spray. UV-protection. Manufactured in 65% polyester and 35% cotton.

## TC-Lite

A fabric with many excellent characteristics. The TC-lite has been specially developed to ensure a maximum high breathability and comfort in warm weather. The fabric is fast drying and does not crease easily. The combination of tightly woven 65% polyester and 35% cotton gives a durable and wind resistant product. The TC-Lite fabric is treated for extra water repellancy.

## TC-Stretch

A fabric which is extremely comfortable to wear as it has a built in stretchable function. The TC-Stretch has been specially developed to ensure a maximum high breathability and comfort in warm weather as well as to through its elastic characteristics give better fit and comfort. The fabric is quick-drying and does not crease easily. The combination of tightly woven 64% Polyester, 34% Cotton, 2% Elastane gives a durable and wind resistant product. The TC-Stretch fabric is treated for extra water repellancy and also gives a UV 50+ protection. The fabric can also easily be re-impregnated.
