

FIELD GUIDE 2027

VIP

DOMETIC CFX5 FRIDGE/FREEZER

OF

COOLERS

Leave the ice behind. Take the adventure further. The CFX5's durable build and advanced insulation make it the most capable electric cooler yet. Vacuum Insulated Panels reduce power draw while dual-zone cooling keeps everything at the perfect temperature—no matter how long the road.

What are Vacuum Insulated Panels? VIPs. Advanced Insulation. Smarter Performance.

How It Works

Just like the insulation in your water bottle—VIPs reduce heat transfer by eliminating gas molecules.

The Result

Stays cold longer. Uses less energy.
Lightweight and compact.

Why It Matters

More cooling. More food and drinks.
Less cooler.

VIP :
VACUUM
INSULATED
PANELS

The diagram shows a cross-section of a vacuum insulated panel (VIP) installed within a cooler's wall. The panel is a thin, rectangular block with a textured surface, sandwiched between two layers of a thicker, porous insulation material. A circular inset provides a magnified view of the panel's surface texture. A line connects the text label to the panel.

CFX5 ELECTRIC COOLER

PRODUCT FEATURES

Vacuum Insulated Panels (VIPs) – Maximum Efficiency, Less Bulk

Say goodbye to wasted space. VIP insulation keeps food cold longer without adding extra weight. No ice needed, more room for food, and more freedom to explore.

Smart Cooling – Variable Motor Speed Optimization 3.5

Adapts automatically to your needs, balancing performance and efficiency while running up to 5dB quieter—so you hear nature, not your cooler.

Built for the Roughest Roads

The rugged ExoFrame design, reinforced corners, and sturdy aluminum handles handle tough terrain. Spring-mounted components and rubber dampers keep it steady and quiet, no matter where the road takes you.

Intuitive High-Resolution Display

Easy to read. Weatherproof. A bright TFT color display gives you complete control, while the 18W QC 3.0 USB port lets you charge your devices on the go.

PRODUCT HIGHLIGHTS

- **Powerful Cooling** – Drops to -7°F (-22°C) while using less power than a 60W light bulb.
- **Smart Monitoring** – Track temperatures, monitor energy use, and get alerts via the Dometic Bluetooth app. Control it remotely and connect multiple devices.
- **Optimized Cooling Efficiency** – The extended evaporator ensures even cold distribution throughout the cooler. No hot spots.
- **Multiple Power Options** – Run it on AC, DC, or go fully off-grid with Dometic batteries or solar panels.
- **Battery Protection** – 3-stage protection system prevents draining your vehicle’s battery while allowing deep draw on dual setups.
- **Premium Build & Thoughtful Details** – Features a removable wire divider, interior light, folding aluminum handles, durable TPE gaskets, and an integrated bottle opener.

RECON
ACTIVE

PRODUCT HIGHLIGHTS

Cooling that Lasts

Freeze and cool at the same time — or go full freeze or full cold — with adjustable dual zones that go as low as -22°C. No ice, no slush.

High Power, Low Profile

Advanced LiFePO4 battery delivers stable, lasting power in a compact, streamlined design that snaps smoothly in place to deliver performance without impacting volume.

Roll and Go

Large, all-terrain TPU wheels are durable, smooth, deliver 56 mm clearance, and the retractable Glide Handle is angled for easy pulling without tipping or jackknifing.

Access from Any Side

A dual-hinge lid opens left or right — or lifts off completely — for fast, easy use and wide-open access.

Space Efficient Design

Engineered to deliver 47L of cooling space in a streamlined footprint, it holds 58 cans, is tall enough for wine bottles, and a versatile size for standalone use or as part of a Recon System.

Recon CF 47DZW
47L, 58 Cans

Dimensions W x L x H (mm / in)
427 x 748 x 519 mm / 16.81 x 29.45 x 20.43 in

The Recon CF 47DZW is built to move—dual-zone cooling, all-terrain wheels, and a removable battery for off-grid power. Keep food fresh and drinks ice-cold without the hassle of ice. Dial in the temp, roll over anything, and stay ready for whatever's next.

SLATE

Recon Battery
256Wh

Integrated detachable battery delivers lasting power to keep contents cool, cold, or freezing without ice. Multi-port design clicks into the Recon Compressor Cooler for low-profile powering, includes USB-C 100W, USB-C 20W, USB-A, and XT60 ports for input and output, and a built-in MPPT charger to maximize solar panel intake and conversion.

SLATE

REIMAGINE

YOUR

A sudden day trip, a weekend away, or wandering without a destination. Extra cooler space, no ice needed. You, and your car, hitting the road.

DTE THERMO ELECTRIC COOLER

Advanced Dometic engineering keeps your food at the perfect temperature—hot or cold. Light, portable, and perfect for travel, the DTE26’s thermoelectric element heats up to 58°C inside temperature and cools down to 22°C below ambient temperature. It runs on 12V or 230V power, the control panel is intuitive and clear, and the secure, comfortable steel handle holds the lid open for easy access.

PRODUCT HIGHLIGHTS

SECURE, COMFORTABLE CARRY

Steel flip-up handle with a comfortable foam grip makes for easy transport, props the lid open for easy access.

LIGHTWEIGHT AND STREAMLINED

Engineered to be compact, light, and portable, it fits on the seat next to you—perfect for car or truck. Integrated feet provides stability and reduces heat transfer for improved cooling performance

STAYS COOL, HEATS UP

Thermoelectric element cools down to 22°C below ambient temperature, heats up to 58°C inside temperature, and has a simple, intuitive temperature control.

THE OPEN ROAD IS CALLING

And Recon is your ticket to answer. Inspired by the art of reconnaissance—surveying the unknown and preparing for what's ahead—Recon is a beautifully simple, adaptable, and rugged system. It empowers you to build a setup that perfectly matches your gear and your goals. Recon doesn't just come along for the ride—it prepares you for every step of the journey. Your gear, your way—opening more doors to exploration.

RECON HARDSIDE COOLER

PRODUCT HIGHLIGHTS

Next-gen hardside coolers made to fit your journey. Stack ‘em, pack ‘em, and build a custom system that’s optimized for vehicle travel and designed to keep your food and drinks cold for the long run.

Lightweight Durability

Injection-molded with welded seams and up to 2-inch insulation, Recon is up to 30% lighter than other coolers—built for max efficiency without the bulk.

Packable & Stackable

Rubber top nests securely for slip-free stacking. Pack more, carry less.

Dual Open Removable Lid

Latches open from either side or remove entirely for full access. Tight-seal gasket locks in the cold. Metal latches double as bottle openers. Lockable for extra security.

Elevated Extras

Magnetic plug stays put while you drain and built-in lock points so you can secure your cooler when needed. Medium and large Recon come with an organizing basket and a divider that doubles as a cutting board.

PART OF THE
RECON SYSTEM

PRODUCT HIGHLIGHTS

Light, tough, and built for the journey. Recon ZL integrates seamlessly with your Recon System or stands alone for grab-and-go adventures—perfect for side trips, quick hikes, and venturing beyond basecamp.

Performance First

Frost Core™ insulation, rugged 840D nylon, and a leakproof liner deliver lasting cold and unmatched durability.

Zipper-Free Durability

No zippers. No weak points. Recycled 840D nylon, double-layer TPU coating, leakproof welded liner, and a reinforced base.

Chill Anywhere

Dual-hinge latches swing open from either side for quick, one-handed access and a magnetic handle and rugged straps give easy grab and go.

DRINKWARE FOR OUT THERE

Hydration, redefined. Dometic isn't just built for the road—it's built for discovery. With modular lids, collars, and handles, you call the shots—creating a bottle that works your way and fits your plans. Triple-wall insulation locks in temperature for hours - even days - while, rugged, sustainable materials deliver lasting performance. Thoughtful design meets durability, inspiring every step of your journey.

ONE SYSTEM. EVERY ADVENTURE.

Switch lids. Trade grips. Mix and match your setup to fit the day — or the detour.

PRODUCT HIGHLIGHTS

Built to Perform

Double-wall vacuum insulation locks in temperature, keeping drinks cold for days or hot for hours.

Measures Up

Embossed internal measurements make it easy to track hydration or mix with precision.

Stable & Quiet

An integrated TPE coaster adds stability and ensures quiet placement on hard surfaces.

Smart Flip Cap

An integrated flip cap magnet keeps the lid open while you sip—no more distractions. (Not on Straw Lid.)

Easy to Clean

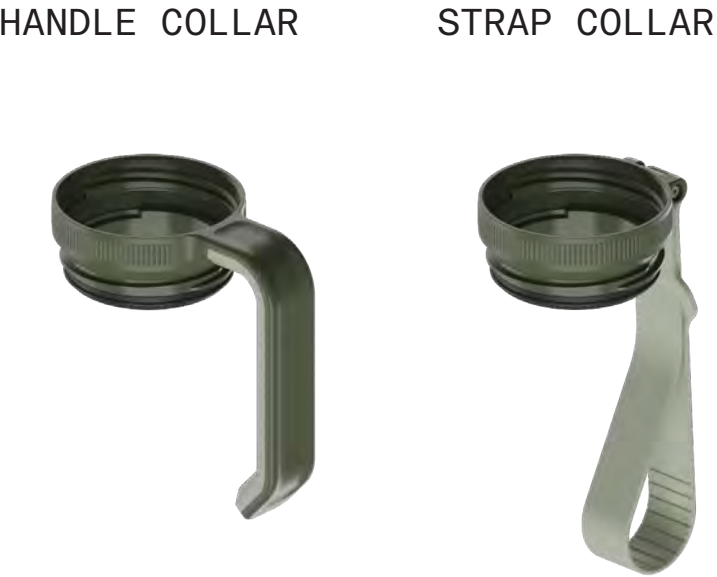

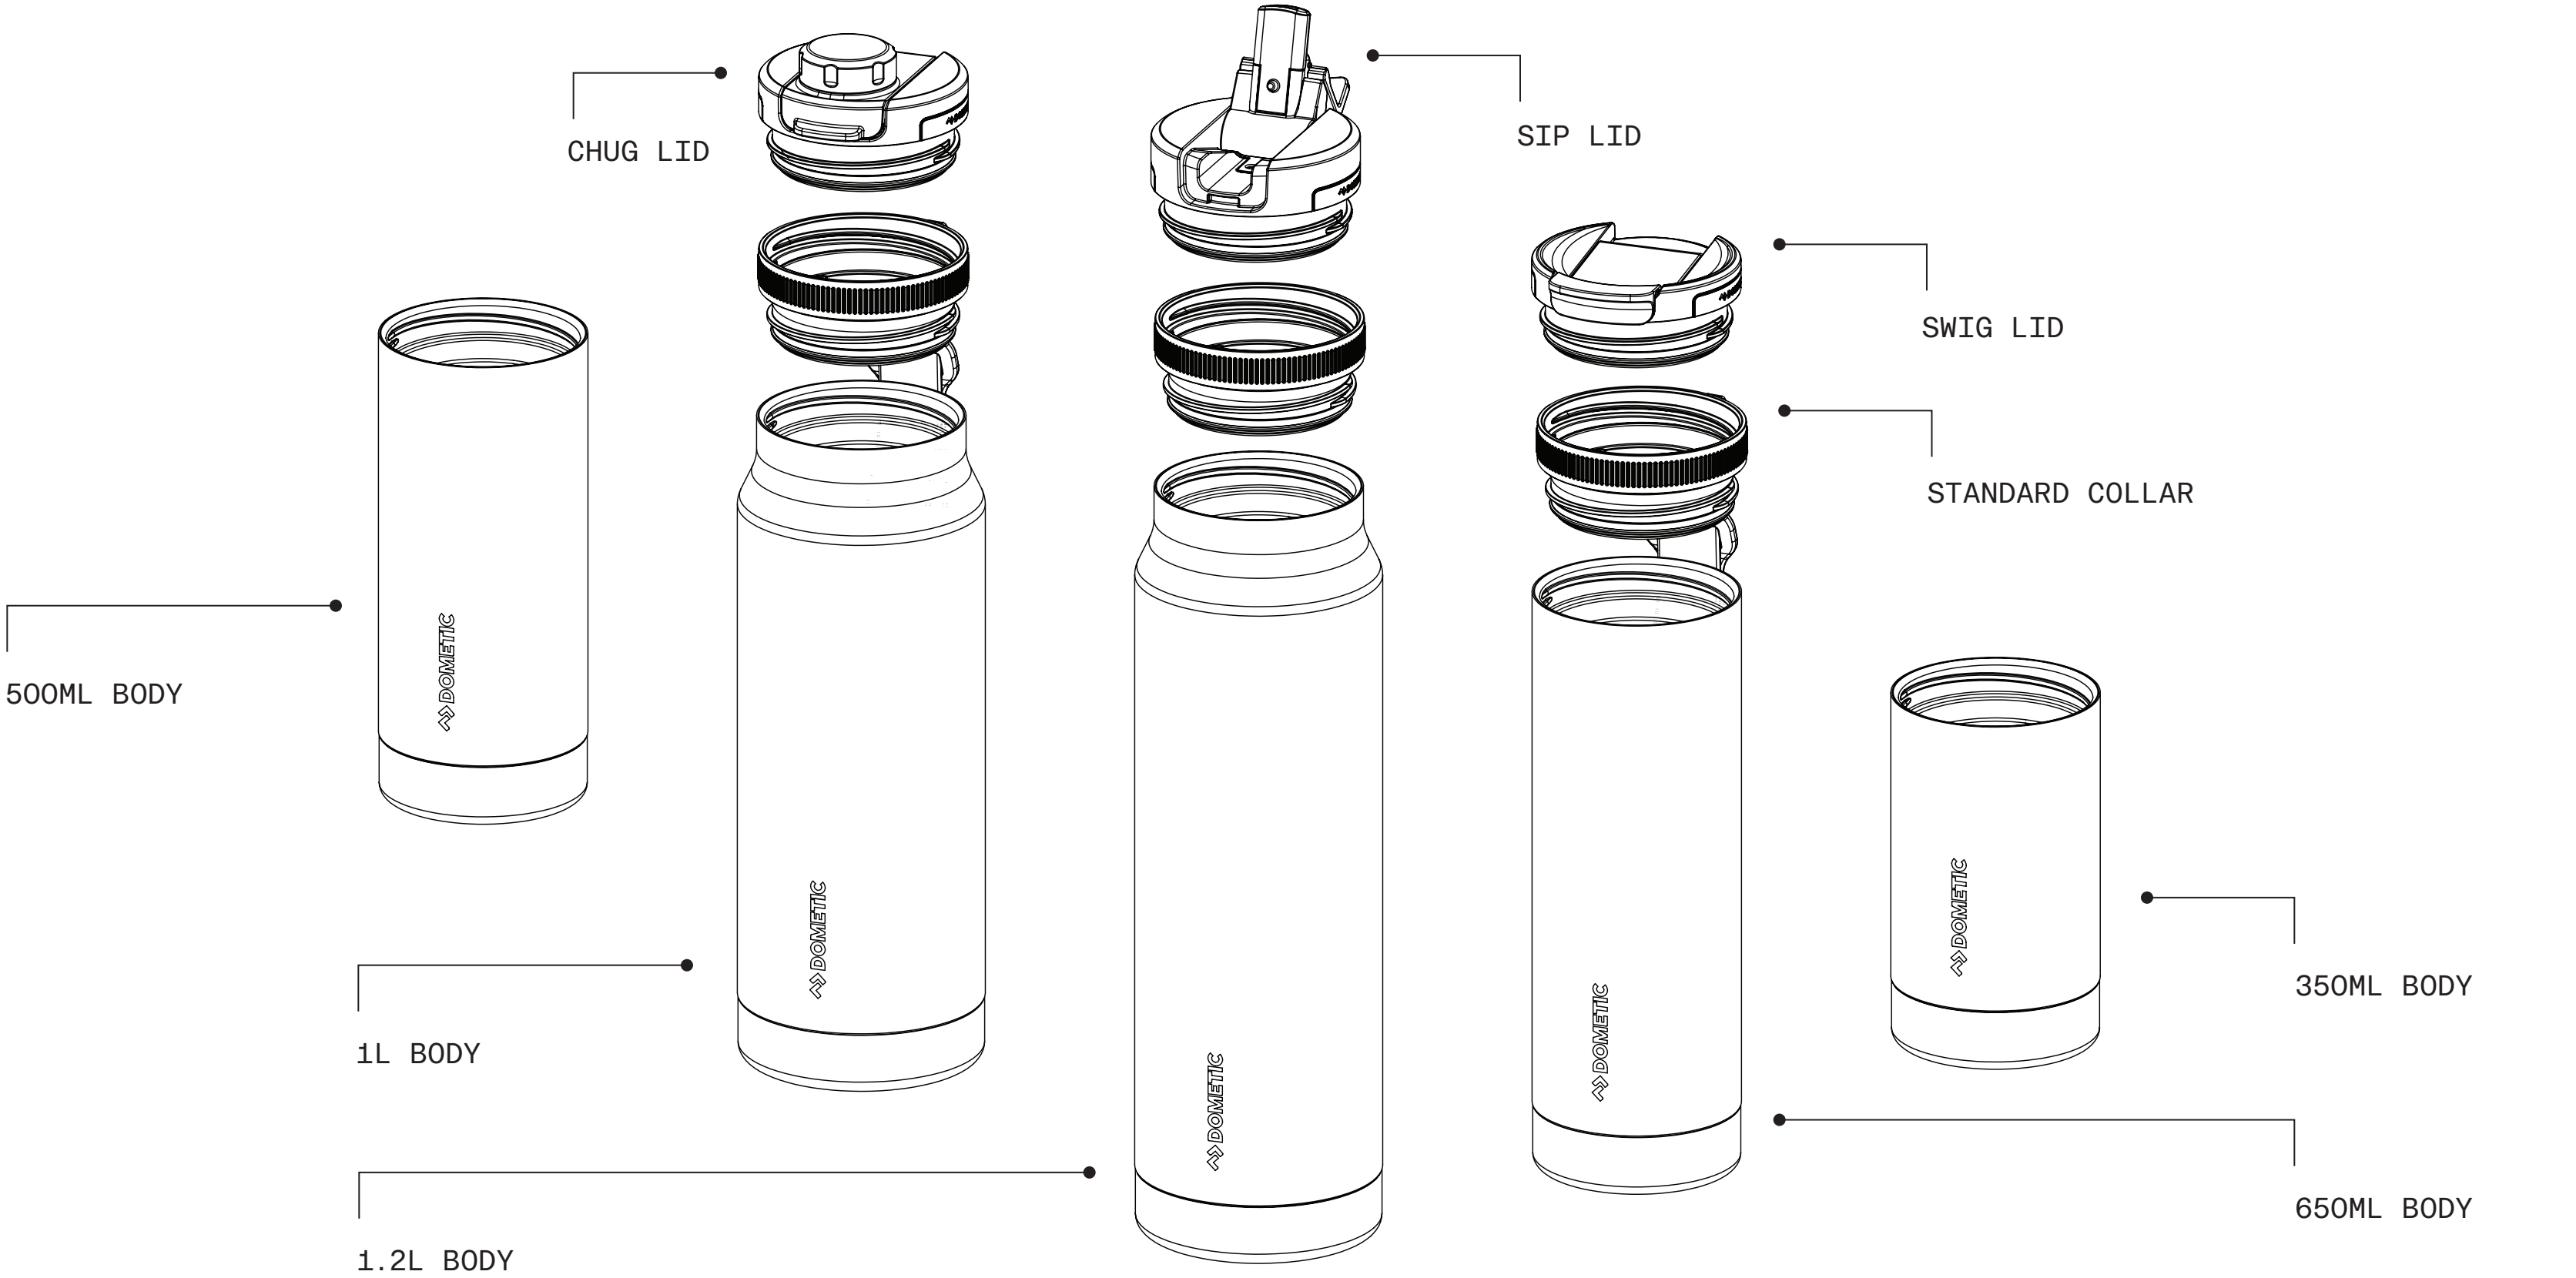

Leakproof, dishwasher-safe, and designed with an easy-to-remove gasket for a quick, thorough clean.

Made for Real Life

Durable, sustainable, and built for wherever the road takes you.
